

USE YOUR BENEFITS WISELY

As we prepare to bring 2017 to a close and ring in the New Year, we want to remind you to take advantage of your year-end insurance benefits and flexible spending accounts. In many cases, not using your benefits before the end of year, means you may be required to forfeit them.

Call our friendly staff if you are unsure of the dental treatment you may need, and we will review your charts and answer your questions. As a reminder, we also offer flexible payment options for your out-of-pocket expenses.

Don't lose that money—call today for your appointment, as remaining slots fill up quickly towards the end of the year.
